KEYNOTE SPEAKER

JOHN NICHOLS

JOHN NICHOLS is an American journalist and author. The political correspondent for *THE NATION* magazine and associate editor of *THE CAPITAL TIMES* newspaper, he is the author or co-author of ten books, including a best-selling biography of former Vice President Dick Cheney, histories of American opposition to empire and the movements to hold presidents to account, and a series of books on media and democracy.

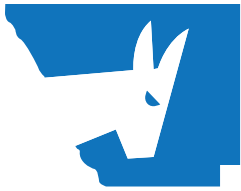

UPRISING: HOW WISCONSIN RENEWED THE POLITICS OF PROTEST, FROM MADISON TO WALL STREET

The protests in Wisconsin captivated the nation and paved the path for Occupy Wall Street. More than 100,000 public employees, teachers, students, and their allies descended on the capital in Madison, Wisconsin after Governor Scott Walker announced his plan to eliminate the right of public sector employees to unionize. The struggle (and the Democratic caucus' escape to Indiana in order to prevent a quorum from being reached) elicited extensive national media coverage and debate—as well as enormous grassroots support for protestors. *UPRISING* provides an anatomy of the event and its implications for the political future of the nation. As state legislatures across the US (in Ohio and New Hampshire, to name a few) take up union busting measures, Nichols shows how the Wisconsin case is a blueprint for progressives around America who've had enough. He also explores how Wisconsin protesters inspired and engaged with the Occupy Wall Street movement.

Printed on 100% post consumer recycled paper.

Paid for by the Larimer County Democratic Party.
